SENIOR PHOTO OPTIONS

Option 1: Professional Photographer (Best Option)

This is the easiest and best option for a high quality senior portrait.

Most of the local Photographers have been provided with the specifications for senior photos and will format the photo you select to have featured in the yearbook. Please check with your photographer to make sure they know the specifications.

Remember, for this option, the earlier you schedule, the better. Photographers' schedules fill up quickly during the summer.

Option 2: Take Your Own Photo (Must follow guidelines)

If you have a friend or a family member who can take a high-quality portrait, you may use this option.

Here is what you need to know for that:

- ❖ Submit a digital file to: Please check website for current address
 - You will receive a return email confirming we received it.
- ❖ Digital files should be edited using photo software and saved at a high resolution
- ❖ Must be saved as a **High Resolution JPEG** file and in this format: **lastname_firstname 12.jpg**
 - Make sure the file name is the students name & spelling they wish to use for the Yearbook.
- ❖ Only one file can be submitted, do not send multiples.
- ❖ Yearbook staff reserves the right to decide if a submitted photo can be used or not.
- ❖ Photo vertically oriented. Tall not Landscape
- ❖ Background should be uncluttered and free of distraction
- ❖ Pose is standing or sitting, head and upper torso in the picture
- ❖ **Submit photo to: Check Website - on or before the March 31st, 2021 deadline.**

Option 3: Yearbook Staff Senior Portrait

Because of the Covid situation, we will work to provide this option once the school year starts again. If we are still in a Remote Learning phase, we may not be able to provide this option. Please watch for communication about this option once we return to school.
